Spring Greetings

I always look forward to the arrival of spring. The green grass, the flowers, and the blooming trees are all signs of a new season. This new life is a great reminder of our life in Christ and the work that He is doing in our lives each day! What "new" life do we want growing in us this year?

Our Sales team at Raber Patio has been busy meeting with potential new customers, as well as quite a few past customers. We have learned a lot & have needed to adjust a number of things over the past 2 years. We expect 2022 to be another great year! We are seeing long lead times on some products, so don't wait too long to get your project on our schedule.

Sunrooms are still our "bread & butter", and we are excited to add Stoett retractable screens to our product lineup. Retractable screens are a great way to keep the mosquitoes and other insects out of your pavilion or a covered porch area so you can enjoy time spent with friends & family. If you have an existing screen room and would like to convert to a 3 season room, our Weathermaster & Eze-Breeze windows would be a great option for you.

Maybe you have an older deck that needs to be replaced or updated with a maintenance-free decking material? We offer 3 different decking options; aluminum, composite, & vinyl. We also offer pavilions and pergolas to enhance your outdoor living experience. Check out our website for options.

Last but not least, new construction & replacement windows are available! We still offer free quotes on all of our products. We would be honored to meet with you to discuss your project!

Thank you for your business in the past! We really appreciate the referrals that you send our way as well! Please let us know if there is anything we can do to serve you this year!

Dear Customers,

We cannot tell you how much we appreciate you. We could not have a business like we have without you. Coming out of Covid we feel we are stronger than we were prior, though we still have long lead times to deal with. I think most people are planning ahead better because of that. Thank you for all your patience.

We have also brought on some exciting new product lines to help fulfill the customer's needs; roll up screens and another line of decking. Thanks for your new product ideas to make your backyard living more comfortable. Our goal is to provide the "most outstanding service experience".

Thanks again to all YOU!
